SUSHI BOAT SYSTEM

Rotational Sushi Boat Bar

A Sushi Boat is a miniaturized boat loaded with all sorts of dishes on them that pass through in front of you. You can reach out and pick dishes on the boat that you would like to have. It is fun to select what you like to have. We are specialized in Japanese Sushi Restaurant Concept Design and Build. Sushi Boat System is just another one of our enthusiastic approach in making food presentation a little more sophisticated and fun! We believe unconventional system and restaurant design will definitely adapt to the ever changing crave for new restaurant among youngsters nowadays. We are able to bring to you the result of the synergy between art and practicality for your restaurant management instantaneously.
